

## EVENINGS OF EXTRAVAGANCE

Bertolucci's Stria collection is adornments made for the woman searching for a watch that complements her evening wear. Set on a satin bracelet, the case is decorated with ripples, like a shell reflecting a soft and silky light. Luminous and radiant, Stria evokes the Italian Riviera, Bertolucci says.

Vibrant colours and stylish motifs enhance the new collection, which includes the 30s inspired Stria Art Deco (HK\$180,000). This extravagant watch (right) combines apple green with rose gold and rubies.

Arabesque (HK\$180,000), studded with about 30 diamonds that stand in contrast to the elegance of white and the softness of mother-of-pearl, as well Cosmic, Stary and Flowers (all HK\$199,000) complete the collection. Cosmic features 23 diamonds in orbit, either on a trendy purple dial or on a pure white one, while Stary plays with stars from every angle: applied indexes set with diamonds, matt finishing on the dial, hot-stamped on the strap, together, creating a glamour rock style. Flowers marries purple with a feminine, flower motif.

The Art Deco has an 18 carat rose gold case, 162 full cut VVS diamonds (0.70 ct), and four full cut rubies (0.02 ct). It comes with an apple green satin strap. The movement is Swiss quartz.

Also being released this season is the Gioco (HK\$780,000), a limited edition quartz watch (top) that marries watch-making with jewellery. An innovative construction gives life to a bezel made of six different elements set on the dial. The watch, with a pink lizard leather strap, has an 18 carat white gold case, paved with 362 full cut VVS diamonds (4.90 ct), while the dial is paved with 66 full cut VVS diamonds (0.17 ct). The buckle on the strap is set with 99 full cut VVS diamonds (0.41 ct). ▲
