

BERTOLUCCI

Bertolucci's corporate origins are steeped in romance, and its collection today keeps that emotional spirit alive. Remo Bertolucci, an Italian from Tuscany, was vacationing in the Italian seaside resort of Forte dei Marmi when he met and fell in love with a beautiful Swiss woman. He married her and moved his world to Switzerland, where his wife's family was accomplished in the watchmaking business. Remo launched his own collection of watches with the beauty of Italy's Mediterranean shores as his design inspiration. The current lines in the collection follow the four C's of Bertolucci: creativity, curves, comfort and construction.

COLLECTION HIGHLIGHT

Embodying the brand's four C's is the new Animation Mosaico, part of the Serena Garbo Lady collection. The feminine yet playful watch features a unique and fashionable dial with a colorful mosaic pattern set on a white-silvered opalin and enhanced with eight square princess-cut rubies. The 36.5mm stainless steel case has a bezel set with 180 full-cut diamonds, totaling over two carats (\$12,300).
